

Contents

Part 1	Storms	
Lesson 1	Thinking About Catastrophic Events	2
	Inquiry 1.1 Creating a Group Concept Map	4
	Inquiry 1.2 Using a Globe and a World Map	4
	Images of the Earth	4
	How Scientists Study the Earth	6
	Views From Space	8
Lesson 2	Introducing Storms	12
	Inquiry 2.1 Modeling a Vortex	14
	Tornado Watch or Warning?	17
	What Is a Vortex?	18
	That's a Fact: An Introduction to Thunderstorms, Tornadoes, and Hurricanes	20
Lesson 3	Heating Earth's Surfaces	26
	Inquiry 3.1 Investigating Rates of Heating and Cooling	28
	Weather Versus Climate	30
	The Source of Earth's Heat	31
	The Atmosphere: A Blanket of Air	34
	Joseph Henry: The Father of Weather Forecasting	37
Lesson 4	Heat Transfer and the Movement of Air	42
	Inquiry 4.1 Investigating the Temperature of Air	44
	Inquiry 4.2 Investigating How Warm Air and Cool Air Move	46
	Air Masses	49
	What's the Forecast?	50
	Weather Forecasting Can Be Cool... or Hot!	53
Lesson 5	Convection Currents in the Air	54
	Inquiry 5.1 Investigating the Effects of Colliding Air Masses	56
	Why Does the Wind Blow?	59
	What Are Monsoons?	60
	Weather Fronts	63
	Trouble in Tornado Alley	64
	Waterspouts	66
	Staying Safe	67

Lesson 6	Temperature, Pressure, and Cloud Formation	68
	Inquiry 6.1 Observing Evaporation and Condensation	71
	Hurricane Formation and the Water Cycle	72
	Inquiry 6.2 Modeling the Effects of Air Pressure on Cloud Formation	73
	Inquiry 6.3 Reading Weather Maps	75
	The Truth About Air	76
	Torricelli: Inventor of the Mercury Barometer	77
	Hurricane Mitch	78
Lesson 7	Ocean Currents and Global Climate	80
	Inquiry 7.1 Investigating the Effect of Temperature on Ocean Currents	83
	Ocean Currents	84
	How Trade Winds Cause Upwelling	87
	Inquiry 7.2 Investigating Surface Currents	88
	Surface Currents	89
	El Niño Stirs Up the World’s Weather	92
Lesson 8	Storms Assessment	96
	About Earthquakes	99
Lesson 9	Exploring Risks Through an Anchor Activity	102
	Introducing the Anchor Activity	105
	Anchor Activity Guidelines	106
	The Big Thompson Flood	109
	What Is a Flash Flood?	111
Part 2	Earthquakes	
Lesson 10	Introducing Earthquakes	114
	Inquiry 10.1 Thinking About Earthquakes	116
	What Is an Earthquake?	116
	Myths About Earthquakes	118

Lesson 11	When the Earth Shakes	120
	Inquiry 11.1 Testing the Motion of Waves	122
	Inquiry 11.2 Designing and Building an Earthquake-Resistant House	128
	Designing Earthquake-Resistant Buildings	130
Lesson 12	Recording Earthquake Waves	134
	A Brief History of Earthquake Detection	136
	Inquiry 12.1 Recording Vibrations	137
	Inquiry 12.2 Reading a Seismogram	142
	The Alaska Earthquake of 1964	143
	Finding an Epicenter: The Tortoise and the Hare	146
	Inquiry 12.3 Locating the Epicenter of an Earthquake	148
	Canines to the Rescue	152
Lesson 13	Plotting Earthquakes	
	Inquiry 13.1 Plotting Earthquakes To Identify Patterns	156
	Magnitude & Intensity	159
	Using Historical Earthquake Intensity To Estimate Future Risk	
Lesson 14	Using Earthquakes To Study the Earth's Interior	164
	Inquiry 14.1 Examining the Earth's Interior	166
	The Earth's Interior	167
	Using Waves To Explore the Earth's Interior	168
Lesson 15	Investigating Plate Movement and Faults	
	Inquiry 15.1 Using a Simple Model of Plate Movement	172
	Colliding, Sliding, and Separating Plates	174
	Inquiry 15.2 Using the Moving Plates Model	176
	Inquiry 15.3 Investigating Faults With Models	179
	Earthquakes and Faults	182
	Earth's Moving Plates: A Look Back	186
Lesson 16	Convection in the Mantle	190
	Inquiry 16.1 Modeling Convection in the Mantle	192
Lesson 17	Earthquakes Assessment	194

Part 3	Volcanoes	
Lesson 18	Introducing Volcanoes	200
	Inquiry 18.1 Thinking About Volcanoes	202
	Volcanoes: Help or Hindrance?	206
Lesson 19	Volcanoes Change the Landscape	
	Inquiry 19.1 Investigating Magma and New Landforms	211
	Inquiry 19.2 Investigating Lava and New Landforms	217
	An Island Is Born	221
	Volcanologists Talk About Their Work	222
Lesson 20	Viscosity and Volcano Types	
	Inquiry 20.1 Investigating Viscosity and Volcano Type	226
	Volcano Types	229
Lesson 21	Igneous Rock	232
	Inquiry 21.1 Observing Igneous Rock	234
	Volcanoes: Roaring Demons, Raging Giants	236
Lesson 22	Exploring Igneous Rock Formation	240
	Inquiry 22.1 Investigating Crystallization	242
	Earth's Waterworks	246
	Earthquake Predictor?	249
	The Rock Cycle	250
Lesson 23	Volcanic Ash	252
	Inquiry 23.1 Investigating the Properties of Volcanic Ash	254
	Mt. St. Helens Erupts	258
Lesson 24	Effects of Ash Fall	264
	Inquiry 24.1 Investigating Ash Fall	266
	Volcano in a Cornfield	270
Lesson 25	Volcanoes Assessment	274
	The Volcano Lovers	279
